2.0 Project Proposal

Project Title	
Proposed Start Date	
Proposed Completion Date	

Please include a copy of the current non-RAD compliant finding aid to help in the adjudication process.

2.1 Describe the project

- Describe the records involved in the proposed project: fonds / collection name, source of acquisition, dates, physical extent (expressed in cm or m), type of records (textual, photographic, cartographic / architectural, and / or sound recording and moving images), etc. Explain how the person, family, organization, business, etc represented in the records is important to the community your archives represent. This can be achieved through a short biographical sketch or administrative history, a newspaper article, obituary for example.
- Why do you want to re-describe this fonds / collection versus other non-RAD compliant holdings? For example, maybe you receive frequent inquiries for material in the fonds / collection and a RAD compliant finding aid will help researchers; maybe the original description was poorly done and you do not know what information is contained in the records. These and other reasons can be why you want to re-describe the fonds / collection.
- Will the current levels of description for the fonds / collection be kept or will new levels need to be created?
- How will you let the public know the records have been re-described and are now more accessible?
- Who are your project partners? (If applicable)

2.2 In what year was the fonds / collection donated to your institution?

2.3 Does this fonds / collection have a Deed of Gift?

— Yes

— No

— It's complicated. Please explain why.

2.4 What percentage (%) of the fonds / collection is archival documents (i.e. original documents)? This number will be factored into the amount of time that can be used for appraisal. If your application includes a majority of non-archival documents the Adjudication Committee will likely question why you are processing the fonds / collection.

2.4.1 If your institution wants to arrange and describe a large portion of non-archival documents, please explain the rationale behind this.
